

Arctic and Our Impact Discovery Kit Overview

Recommended grade level: 3-5

What to do when you open this kit!

1. Explore the artifacts and objects listed below with your class. When relevant, discuss as a class **what** these artifacts are, and **why** they look the way they do. The included Artifact Info Sheet provides facts and identification information about artifacts!
2. The Pre & Post Session Activities: Arctic and Our Impact sheet outlines program competencies, vocabulary, and curriculum ties. It also provides detailed instructions about activities and how to prepare for your virtual session.
3. The bonus optional food web activity sheet outlines how to interactively explore the arctic food web with your class.
4. The images included in this kit can be used to illustrate the animals you discuss!
5. *The Inuit Thought of It* can be read with your class to further explore Inuit culture in Canada.
6. The Green Learning Educator Package (for use in the pre-session activity) and an Arctic Orientation document (for Educators) may be found on the included USB stick.
